The International Conference on Advanced Electrical Engineering is the premier event of the IEEE Algerian Section and "AAGEE", the Algerian Association on Electrical and Electronics Engineering, founded in 2016 with the purpose of improving communication between groups and individuals that work within the multidisciplinary field of Electrical Engineering in Algeria and elsewhere. The 4th edition of ICAEE will be held from 21 to 23 November 2026 at Ecole Nationale Polytechnique, Algiers, Algeria. The program will feature world-class plenary speakers for emerging topics, as well as sessions covering the latest research and innovation in the field.

Conference Topics

Track 1: Electrical & Electronics Systems

- Electrical Machines
- Power Electrical Systems
- Electromagnetic Compatibility
- Renewable Energies
- Smart Grids
- Materials for Electrotechnics
- Diagnosis and Fault Detection
- Battery Management System
- Analogical and Digital Electronics
- Any other topic related to Electrical & Electronics

Track 3: Control

- Robotics and Automation
- Control of Linear and Nonlinear Systems
- Control Applications
- Cooperative Control
- Process Control & Instrumentation
- Robust Control
- Automotive Control
- Diagnosis and Fault Detection
- Industrial Process Monitoring
- Any other topic related to Control

Submission of Papers

Prospective authors are invited to submit full-length papers of four pages of technical content (with a fifth page containing only references). Please refer to the conference webpage for more information about paper template and formatting guidelines. All accepted papers must be presented at the conference in order to be included in the proceedings. There will be best student paper awards.
